### TESTIMONIAL

"Tim,

*I have followed up with Speedloc application at Grede Foundry with Gary Dalgard and at Advanced Tooling the builder for Grede. The trim dies Advanced built went to Grede plant in St. Cloud, MN. Gary has gotten positive feedback from St. Cloud, in fact they will be replacing Ball Lock with Speedloc whenever they can.*

*I have spoken with the Engineer at St. Cloud and he repeated what Gary had said, that they work very well and will be using Speedloc. I will be sending him catalogs, the only info he has is photo copy pages from the builder."*

**Gary Dalgard, Director of Process Improvement**  
Grede Foundries
